Starting as a PR coordinator to becoming a Vice-President to my current position as a strategic advisor at JUKTI - The Official Club of CSE, IUB, was all about dedication. I'm really passionate about doing things well, which pushed me to learn and jump into the business world. With a mix of what I learned in school and hands-on projects, I'm ready to use these skills at work. When I tackle a task, I always follow strong values, pay close attention to every little thing, and always aim for the best. This makes me a really important and valuable person in any job.

Skills

- **Soft Skills:** Problem-solving, Punctuality, Communication, Strategic thinking
- **Programming Languages:** Python, C++
- **Front-End:** HTML, CSS, JavaScript
- **Back-End:** PHP, MySQL
- **Framework:** Bootstrap
- **Library:** ReactJS, Redux
- **Languages:** English, Bengali

Education

Independent University, Bangladesh (IUB)

- BSc. in Computer Science 2019 - 2023 [Expected]

Bangladesh International School, English Section, Riyadh, KSA

- IGCSE 2015- 2016
- A-levels 2017-2019

Experience

TechTrioZ

- **Content Writer** Jun 2021- Dec 2021

As a content writer, I was behind the content of the company's social media, which included post captions, and writing about their missions and visions.

Projects

- **Canteen Management System**

The purpose of the project is to decrease the manual work being done for managing the canteen. This was developed using HTML5, CSS3, and Bootstrap5 JavaScript for the frontend development with PHP as the backend and MySQL for the database.

- **DevTech**

The purpose of the project is to manage application development using end-to-end software management. This has been developed using HTML5, CSS3 and Tailwind CSS.

- **Hotel Management App**

The purpose of the project is to manage hotel-room booking efficiently using ReactJS

Training & Certifications

Introduction to JavaScript

Bohubrihi

Introduction to Python Programming

Bohubrihi
